

## Final stretch

Tuesday, 08 September 2009 13:58

---

We are currently in the process of making Galactic Gaming Guild an official entity, in order to commercially release Full Ace.

In the meanwhile, we are still working on improving the game, and we will allow you to follow our progress with successive demos.

Today's version includes better AI and gameplay. It also allows full sets with tie break. You can also use the editor, don't hesitate to reduce your opponents stats in order to smooth your bettering in mastering the game.

You don't need to register to play this demo.
