Major update
Last Updated Wednesday, 10 November 2010 15:34

First post in some time, and therefore, a lot of new things in the game ! Version 2.4 is out and as well as many bug fixes, it includes the following new features :

- Allowed stadium and tournament edition
- Allowed bounce properties edition in stadium
- Added "revert to default" option in editor
- 25 additional tournaments
- Allowed texture edition by using JPG and PNG formats
- Added new camera options
- Added option to disable automatic replays
- New and improved animations
- Proofed network against lag
- Improved volley shots
- Tougher AI
- Sound improvements

Registered users have access to this version in the same way as usual. Demo players shall use the link below :
