

Full Ace lands on Steam !

Last Updated Wednesday, 14 February 2018 17:20

Exciting Full Ace news - the new enhanced version will launch Feb 28th on Steam! Finally! Yay!!

The game will release on Wednesday, Feb 28th at 10am PST / 7pm CET and it could use all the support it can get right around launch. Steam is a very crowded marketplace these days - we expect around 15 to 25 other games to be released just on the 28th - and having players play at launch will help others discover Full Ace on the Steam marketplace. You can check out the new launch trailer and game details on Full Ace's Steam page. ([http://store.steampowered.com/app/77943 ... Simulator/](http://store.steampowered.com/app/77943... Simulator/))

For those who have already purchased Full Ace (thank you!), we are happy to grant you early access so you can play the new Full Ace today! You'll only need to convert your game to Steam as all future feature additions and updates will from now on occur through Steam. Simply go to <https://www.galactic-gaming-shop.com/> and click the STEAM button. Also, if you're up for it, we have this short questionnaire about Full Ace <https://goo.gl/forms/cpFZtrMdA73LBCVC3> that we may use for marketing purposes.

We are thrilled to be so close to launch and to get the new enhanced version in your hands. If you have any, we welcome your questions and feedback. Thank you and see you on the court!
