

Demo update

Last Updated Tuesday, 29 September 2009 07:54

This new demo includes overall improvements in gameplay and bug fixes.

It also features both new and updated tutorial lessons to help you understand the game mechanics better, based on your feedback. Therefore, we advise you to go through the tutorial again to acknowledge the differences.

Do not hesitate to give us more feedback on our [forums](#) . We have upgraded them a while ago and previously registered users will have to undergo the password change procedure in order to access it. If you still can't get access, e-mail us through the link at the bottom of the page.
