That's it! At last! The wait is finally over!

Full Ace is now available in its official release, from <u>our shop</u>, at a price of 15 €. You will need an active Internet connection every time you want access to the following features (you can use the

updated demo

to ensure your computer is able to communicate with our server).

Here's a list of version 1.0 additions over demo:

- Full length matches

You can set up an exhibition in 1, 3, or 5 sets and choose the tiebreak rule.

- Split screen

Play an exhibition match against a friend on the same computer with this mode.

- Complete database with full player edition features

Including more than 200 players, 40 tournaments, 41 stadiums. All players are fully editable, and there is no limit on the number of players you can create.

- Tournament mode

Compete in a single tournament. You can choose an existing tournament in the database, or create your own tournament, choosing stadium, set rules, table size and competitors.

- Season mode

Compete in a full season with all 40 FA tournaments. Build your way to the top of the FA tour rankings.

- Game saves

Of course you can save and load your progress in both tournament and season modes. But you can also save during a match, at the end of each set.

Check out the new screenshots!
