

Hello tennis fans !

We have just released Full Ace v4. In this version, season mode features nearly 2000 players, more than 500 tournaments, with qualifying draws as well ! Lots of hours of play in front of all our registered players.

We added an other new feature that is more targeted to beginners : there are two new types of balls that are slower and easier to control. It will be more friendly for newcomers willing to get the hang of Full Ace.

Here are some screenshots of the new features (click for bigger versions), as well as the usual demo download link.
